#### OVERVIEW

Discussions of green building, sustainability and energy conservation are all around us these days. How do we go about practically implementing green initiatives in our local communities? How do we cater our programs to fit the needs and desires of our local communities? What is the planner's role in developing more sustainable and energy efficient communities?

Enjoy distinguished experts, including:

- Rich Franz, Architect, LEED AP, Pima County Green Building Program Manager;
- Anthony Floyd, AIA, LEED AP, City of Scottsdale Green Building Program Manager;
- Tracy Corman, Senior Management Assistant, Town of Queen Creek Manager's Office;
- Jason Crampton, LEED AP, Long Range Planner with the City of Chandler;
- David Whittaker, CBO and Plan Review Manager with the Town of Buckeye; as they:
  - Provide an overview of green building and LEED in Arizona;
  - Discuss the Green Building Programs in their local jurisdictions;
  - Highlight how their jurisdictions implemented their Green Building Programs and how their programs have been received in their communities;
  - Showcase some of their recent or upcoming Green Building projects in their jurisdictions;
  - Provide hints on how to navigate the LEED certification process.
