You can share this DVD with friends and staff so you can all earn credits for one price. This workshop has been approved by American Planning Association for Certification Maintenance credits.

Certification Maintenance Credits for this workshop expire on June 30, 2009.

OVERVIEW

Large scale Master Planned Communities (MPC) have been a way of life in Arizona for many years, but what does the future hold for these communities in the future? This meeting will examine a few existing and upcoming MPC developments for insights into how these projects evolved or are evolving from an entitlement, acquisition and development perspective and how these projects change over time, whether it be in reaction to economic forces, changing demographics, sustainability initiatives, housing affordability, transportation or other factors. Speakers will be present to address this topic from all stages of the MPC lifecycle, namely entitlement, acquisition, site development and construction.

Enjoy distinguished experts, including:

- Jordan Rose from the Rose Law Group PC;
- Tom Lucas, Bob Kammerle and JT Elbracht from DMB Associates, Inc.;
- Priscilla Storm from Diamond Ventures;
- Sean Walters from Sunbelt Holdings;
- Dan Bonow from Pulte Homes; and
- Suparna Daspupta and Adam Zaklikowski with the Town of Buckeye.

- as they all address this timely and fascinating topic from their unique perspectives.
